

You are invited to attend a virtual course hosted by ICCSSA

Introduction to GitHub

PRESENTERS:

Presenter 1: Arthur Antonio

- BSc Actuarial and Financial Mathematics
- BSc (Hons) Mathematical Statistics
- Research Assistant in the Family Medicine and Statistics Departments
- Currently pursuing MSc Advanced Data Analytics

With a strong foundation in mathematics and statistics, Arthur brings a unique perspective to the world of data analytics. Their expertise lies in harnessing the power of data to uncover *valuable insights and make informed decisions*.

Currently, they are expanding their knowledge in the field through their master's program in Advanced Data Analytics. With a passion for exploring new technologies, Arthur is excited to guide you through the GitHub course, helping you unlock the full potential of this powerful platform.

Presenter 2: Ketro Sithole

- 6 x Hackathon-Winner
- Data Scientist | Competitive Intelligence Analyst
- Top 15 Geek in South Africa 2023 Geekulcha | IT
- BSc Computer Sciences
- IT (Majoring in Competitive Intelligence and Digital Repositories)

Ketro Sithole is a powerhouse in the world of data science and competitive intelligence. Their track record of winning six hackathons demonstrates their exceptional problem-solving skills and ability to deliver impactful solutions. As a data scientist and competitive intelligence analyst, they have a deep understanding of how to leverage data for gaining a competitive edge. With a bachelor's degree in computer sciences, specializing in competitive intelligence and digital repositories, Ketro is perfectly positioned to guide you in utilising GitHub for your projects. Their recognition as a top geek in South Africa further reinforces their passion and expertise in the field.

Together, the instructors bring a blend of mathematical, statistical, and data science expertise to the GitHub course, offering a comprehensive learning experience.
